

# Surgical N95 Respirators

## Select What Works Best for You

Selecting the appropriate respiratory protection for a particular procedure is a critical component of your Personal Protective Equipment (PPE) protocol. Surgical N95 respirators are different from ear loop-style surgical masks in that they provide a close facial fit and very efficient filtration of airborne particles. When using an N95 respirator, it's crucial it forms a tight seal around your nose and mouth. Everyone's face has a different shape and size, which is why it's important to find the respirator that works best for you and then perform fit testing to ensure its effectiveness.

### Crosstex™ Isolator™ Duckbill Surgical N95 Respirator

Description	Quantity	SKU
Crosstex™ Isolator™ Duckbill Surgical N95 Respirator	Box of 50	GDBRESP

#### Features

- Flat-fold, duckbill design with dual head straps and malleable nose piece for superior filtration, fit and comfort
- NIOSH-Approved Surgical N95/ FDA-Cleared Respirator
- Indicated for use when treating patients with airborne diseases
- Meets guidelines for TB exposure control
- Fluid resistant to penetration by synthetic blood at 120mm/Hg
- 99.9% BFE (bacterial filtration efficiency) at 3 microns
- 99.9% PFE (particulate filtration efficiency) at 0.1 micron
- Large chamber for enhanced breathability
- Soft inner lining for increased comfort
- Not made with natural rubber latex
- Complies with ASTM F3407- Respirator Fit Capability voluntary standard
- Made in the USA

### Crosstex™ Isolator™ Molded Surgical N95 Respirator

Description	Quantity	SKU
Crosstex™ Isolator™ Molded Surgical N95 Respirator	Box of 20	GMLRESP

#### Features

- Durable, collapse-resistant double-shell design
- NIOSH-Approved Surgical N95/ FDA-Cleared Respirator
- Indicated for use when treating patients with airborne diseases
- Meets guidelines for TB exposure control
- Fluid resistant to penetration by synthetic blood at 160 mmHg
- 99.9% BFE (bacterial filtration efficiency) at 3 microns
- 99.9% PFE (particulate filtration efficiency) at 0.1 micron
- Soft foam nose cushion and staple-free construction for increased comfort
- Contoured, malleable aluminum nose clip and latex-free polymer headstraps for better fit
- Not made with natural rubber latex
- Made in the USA

## Crosstex™ Isolator™ Plus Surgical N95 Respirator

Description	Quantity	SKU
Crosstex™ Isolator™ Plus Surgical N95 Respirator	Box of 28	GPRN95

### Features

- Flat-fold, chin-pocket construction provides increased comfort
- NIOSH-Approved Surgical N95/ FDA-Cleared Respirator
- Indicated for use when treating patients with airborne diseases
- Meets guidelines for TB exposure control
- Fluid resistant to penetration by synthetic blood at 160 mmHg
- 99.9% BFE (bacterial filtration efficiency) at 3 microns
- 99.9% PFE (particulate filtration efficiency) at 0.1 micron
- Malleable nose and chin pieces
- Not made with natural rubber latex
- Made in the USA

## N95 Qualitative Fit Test Kits

Description	Quantity	SKU
Saccharin N95 Fit Test Kit	1	GQLFT-S
Bitrex® N95 Fit Test Kit	1	GQLFT-B

### Features

- Simple protocol that is easy to administer
- Includes solution for up to 55 tests
- OSHA and National Institute for Occupational Safety and Health (NIOSH) compliant
- Each kit includes 1 hood, 60 mL test solution, 60 mL sensitivity solution, 2 nebulizers, 4 replacement nozzles, 2 cleaning tools, and a flash drive with instructional information
- Not made with natural rubber latex
- Made in the USA
